

LEGENDARY VOICE DUSTY STREET IS “THRILLED” TO BE JOINING THE FLYING EYE RADIO NETWORK!

“I can’t tell you how exciting the prospect of playing what I want, and getting to be me on the air again is a true joy.”
Dusty Street, Radio Legend

Malibu, California, October 27, 2011 – The Flying Eye Radio Network is positively giddy as we welcome the addition of legendary radio empress, Dusty Street to its weekly lineup of musicologists. Dusty will take up residence on Mondays bringing her Fly Low show to the Ethernet very single week. Dusty will broadcast semi-live directly from the studios of the Rock n Roll Hall of Fame in spectacular Cleveland, Ohio.

She started out in San Francisco underground FM radio in 1969 when there were limitless possibilities as to where this art form could take you. They were truly creators of a theatre of the mind that took you on wild and exciting musical adventures. The shows were created out of their love and knowledge of the music, and reflected their desire to educate as well as entertain the listeners. “Radio has always been my greatest love and like all insane acts I keep doing the same thing till I get it right” says Street.

Dusty says, (trying to have input into the music my station is playing) and hoping for different results (like not getting fired for it). I have become the ‘radio host’ by day, but on Mondays I turn into the Madame of Music on the Internet. That’s right I will be right here on the Flying Eye Radio Network every single Monday, so fly low and avoid the radar, and stay tuned.

There’s no reason to go into what radio has become, so let’s talk about what it may be. My FlyLow Show on the Flying eye Radio Network has reopened the wonderful world I fell in love with back in San Francisco. I no longer have to sit and stare at thousands of records, tapes and CDs. They now can be played and heard with a mere click of a mouse, and in this house that’s fair warning to watch for flying cats.

Flying Eye is the brain child of Andy Goldfinger and is now entering its fourth year as an Internet radio station, broadcasting the entire spectrum of musical colors. Every single type of music is represented on the Flying Eye Radio Network. Jazz, rock, hip hop, R & B, country, rockabilly, and classical are just some of the pieces of this musical puzzle. It’s new music, live music, and vinyl music, literally any type of music can be heard at any time. The lines of music are not blurred they are erased. Flying Eye also features numerous unsigned artists that are out there touring and playing, affectionately refer red to as the unbands, and we make a concerted effort to ensure their music has a captive audience on a regular basis. We are proud to be the alternative to alternative.

In addition to Tuesday’s Rock Rhythm & Roots Flying Eye offers listeners Music Gumbo hosted by Andrew Styne on Thursday’s. Styne offers the listener a potpourri of musical comestibles that encompasses the entire musical spectrum, mixing jazz, reggae, rock and roll, hip hop, R & B, boogie, Cajun, and country. Music from original vinyl and live recordings will emanate every week.
