Rock n Roll Hall Of Fame CEO, Terry Stewart To Guest On Dusty Street's FlyLow Show On The Flying Eye Radio Network

"Time fo a histroy lesson"

DUSTY STREET, FLYLOW SHOW, FLYING EYE RADIO NETWORK

Malibu, California, January 30, 2012 - That's right, you saw it correctly. Rock N roll Hall of Fame CEO, Terry Stewart is making a guest appearance on Dusty Street's FlyLow show, on the Flying Eye Radio Network. In just a few short months Dusty Street has established herself as a force on the Flying Eye Radio Network. Her passion and knowledge for music is truly incredible. "Being allowed to spread my musical wings has allowed me to fall back in love with radio," says Street. Dusty broadcasts semi live every Monday from the Rock n Roll Hall of Fame and this gives her access to an endless supply of musical morsels which she mixes and matches as the Flying Eye Master Mixtress.

Today will be the first of many guest appearances on the FlyLow show for the Rock Hall CEO. Dusty's musical knowledge is unparalleled, but by her own admission she was humbled by the depth of Terry Stewart's knowledge. What a treat to have the CEO of the Rock N Roll Hall welcome us into his world of music. A true honor to have him as our first guest DJ, but not the last guest DJ on the Flying Eye Radio Network. On Mondays show Terry will be educating us on doo wop, mixing and matching styles and genres, just like the rest of the folks on the Flying Eye Radio Network. Terry's musical knowledge and love for music will be on display on Monday so tune in, at your leisure. Because it is a podcast it can be listened to anytime. Just head out to the website (www.flyingeyeradionetwrok.com) and go to the archive section for the FlyLow show, and voila.

The Flying Eye Radio Network arsenal includes Dusty Street and her FlyLow show on Mondays, Rock, Rhythm & Roots hosted by Steve Cosio on Tuesdays, Andy Goldfinger with Music Gumbo on Thursdays, and yes, end the week with Geno Michellini and his Turntable Hits on Friday (he's got the Flying Eye Funnies and Bang the Drum, just like the old days). The beauty is it's a podcast and can be listened to any time, through the web or downloaded to your favorite Mp3 device or telephone.

Flying Eye Radio Network is an Internet radio station which began broadcasting in 2007. Flying Eye broadcasts the entire spectrum of musical colors, every single type of music is represented on the Flying Eye Radio Network. That includes jazz, rock, hip hop, R & B, country, rockabilly, and classical are just some of the pieces that make up this musical puzzle. It's new music, live music, and vinyl music, literally any type of music can be heard at any time. The lines of music are not blurred they are erased. Each DJ has the ability to pick whatever music they want, there is no list, and there is no one telling anyone what to play or what not to play. Flying Eye also features numerous unsigned artists that are out there touring and playing, affectionately referred to as the unbands, and we make a concerted effort to ensure their music has a captive audience on a regular basis.

We are proud to be the alternative to alternative. Each musical week begins on Monday with the FlyLow show hosted by Dusty Street, semi live from the Rock n Roll Hall of Fame. Tuesday finds Rock Rhythm & Roots hosted by Golden Mic Laureate Steve Cosio, it is the Music lover's radio show. Thursday finds the Flying Eye Radio Network founder and Grand Poohbah, Andy Goldfinger and his Music Gumbo which offers the listener

a potpourri of musical comestibles that encompass the entire musical spectrum, mixing jazz, reggae, rock and roll, hip hop, R & B, boogie, Cajun, and country. Music from original vinyl and live recordings will emanate every week. There is no better way to finish the week than with our own Radio Legend Geno Michellini and his Turntable Hits. This is the show that pays tribute to what FM radio used to be. Plus you get you laughter therapy with the Flying Eye Funnies, and change your attitude to begin the weekend proper like, by BANGING the DRUM. It is a global tradition. The beauty is it's a podcast and can be listened to any time, through the web, or downloaded to your favorite Mp3 device or telephone.
